1961 - 2011 ANNIVERSARY

REGISTERED TRADE MARK

Ci sono motivi a noi peraltro sconosciuti, che spingono certi uomini a guardare un pò più in là: oltre le nuvole, oltre gli scogli, oltre i segreti. Nella loro testa, da sempre e comunque, si culla un obiettivo o un sogno che dir si voglia, e sanno perfettamente che prima o poi si avvererà o che lo centreranno, raggiungendolo.

There are reasons, that are unknow to us, that push certain people to look beyond. Beyond the clouds, beyond the cliffs, beyond their secret goals. Their objective is forever present and they know very well that they will reach this goal. Sooner or later.

IN MEMORY OF
Mr. Franchi Ferruccio
President of
PLASTICHE CASSANO
1922 - 2016

OBIETTIVO QUALITÀ TOTALE

Il cliente è il vero datore di lavoro dei dipendenti della Plastiche Cassano, non il principale.

E' necessario quindi, da parte di tutti, il massimo impegno e la massima onestà durante tutte le fasi della produzione al fine di ottenere la massima qualità.

Il cliente deve essere sempre soddisfatto della qualità del prodotto e del servizio globale reso dalla Plastiche Cassano.

Tra lavorare bene e lavorare male la differenza non è molta, ma gli effetti a lungo andare possono essere molto dannosi per tutti.

QUALITÀ PLASTICHE CASSANO

1. ESPERIENZA DI 60 ANNI
2. MATERIE PRIME DI PRIMA QUALITÀ DA FORNITORI QUALIFICATI
3. CONTROLLO DI TUTTO IL PROCESSO PRODUTTIVO
4. DOPPIO CONTROLLO DEL PRODOTTO
5. GARE DI CAMPIONATO MONDIALE COME TESTS DI COLLAUDO
6. ASSICURAZIONE RESPONSABILITÀ CIVILE SUI PRODOTTI

QUALITY CONTROL ON ALL OPERATIONAL STAGE OF PRODUCTION

The customer is the real employer of Plastiche Cassano staff.

To give the customer the maximum satisfaction of service and quality, it is necessary that we all in Plastiche Cassano commit ourselves in full, with honesty and severe control during all phases of production in order to obtain the best of quality.

There is not much difference between working well or badly, but in the long term unsatisfactory results can be very damaging for us all.

FEATURES OF THE PLASTICHE CASSANO COMPANY

1. 60 YEARS OF EXPERIENCE
2. TOP QUALITY RAW MATERIALS FROM HIGHLY REPUTABLE SUPPLIERS
3. QUALITY CONTROL IN ALL PHASES OF PRODUCTION
4. THOROUGH CHECK OF PRODUCTS
5. WORLD CHAMPIONSHIP RACES FOR PRODUCTS TESTING
6. INSURANCE COVER ON PRODUCTS

QUALITÀ PLASTICHE CASSANO SECONDO LE NORME EUROPEE EN- 29.000

Ecco come si realizza la qualità del prodotto Plastiche Cassano:

1. Innanzitutto grazie all'esperienza, che la Plastiche Cassano ha accumulato da quando ha incominciato a produrre manopole in plastica nella vecchia sede in via Roma, 13 nel 1961, anno di iscrizione alla Camera di Commercio col n. 84585. Ma i proprietari della Plastiche Cassano venivano dalla ditta del loro padre Assaghi Francesco, con sede in Cassano Magnago via Mazzel 42, fondata nel 1925 e produttrice di manopole in corno di bufalo, poi subito dopo la seconda guerra mondiale, delle prime manopole in plastica, bachelite e acetato. Potete vedere le foto della vecchia fabbrica come era nel 1940. Allora si producevano circa 1.000 paia di manopole al giorno, oggi ne produciamo più di 100.000 paia al giorno, con un'esportazione del 70 %.

PRODUCT QUALITY CONSCIOUSNESS OF THE PLASTICHE CASSANO AS PER EN - 29.000

How we obtain the high standard of quality of our products:

1. Mainly we have achieved it through long experience. We started to manufacture our products in 1961, in the old factory of via Roma n.13. In the same year we became members of the Chamber of Commerce with number 84585. However the owners of Plastiche Cassano originated from the family business founded by the grandfather, Mr. Francesco Assaghi. The old company was founded in 1925 and was situated in Cassano Magnago, via Mazzel, 42. It was specialized in the production of handlebar grips made with buffalo horn. Immediately after World War II, the first handlebar grips in plastic, bachelite and acetate were produced. (Please see the photographs showing the old factory in 1940). In those days the production capacity was of about 1.000 pairs of grips per day. Nowadays we produce over 100.000 pairs of grips per day. 70% of our products are exported worldwide.

2. Per secondo, è importante usare materie prime di prima qualità, acquistate da fornitori fidati e qualificati. La Plastiche Cassano effettua il controllo di qualità sul materiale acquistato sia tramite prove interne, sia tramite laboratori esterni imparziali che rilasciano certificati di qualità. Il materiale è atossico come da norme EN/71 e Reach. Lo stoccaggio delle materie prime avviene in locali chiusi e non all'aperto, come fanno molti, per prevenire eventuali deterioramenti dovuti a cause atmosferiche.

2. It is vital for us to use raw materials of top quality, bought from highly reputable suppliers, with consistency of top quality. The raw materials comply with the European safety regulations. Standard EN/71 (non toxic) and Reach.

The Plastiche Cassano Company executes severe quality control over the raw material both in house, and at specialized laboratories which issue certificates of quality. Most of our competitors stock the raw materials in the open. We don't. We stock only indoors in order to prevent deterioration caused by atmospheric conditions.

5. Gare come test.

La Plastiche Cassano da ormai **30** anni sottopone i propri prodotti, sotto il marchio ProGrip, al collaudo più severo e attendibile e cioè quello delle gare dei vari campionati mondiali. Da queste esperienze vengono tratti i suggerimenti per migliorare la produzione di serie.

5. Tests during races.

For the last **30** years we have submitted our products marketed under the trade mark "Pro Grip", for race testing at events up to world championship level in three fields. From these experienced champions we gather useful informations for ever improving the quality of our mass production.

Photochromatic Xelox L is a solar filter with a high speed of reaction: Activation time about 4 seconds, fading time about 4 seconds. This product is in a compliance with specifications EN 166, EN 174 and EN 1836. According to EN 1836 such filters comply to point 4.1.3.1, which fixes the category for

photochromatic filters based on luminous transmittance at faded state n_0 and luminous transmittance at darkened state m_1 . For photochromatic filters the ratio between n_0 and m_1 must be $\geq 1,25$.

GREEN STRIP

3 ADHESIVE LENSES

NEW TECHNOLOGY

#3272

Your lens should be fitted in your goggle before applying the protect strip.

Peel back the inner "ADHESIVE SIDE" film slightly.

Line up the strip on your lens.

Apply the film and gradually peel away the rest on the inner protective layer.

Apply pressure starting at the centre and working outwards.

Remove outer protective film.

NO MUD

Developed by pro racers for the most tough Off-Road conditions, the new PROGRIP 4010 Glove has additional padding in the palm and on the outside of the thumb, in the areas where you need that "something extra" to guarantee comfort during prolonged and extreme use. All areas of high use are reinforced with evident protective stitching and panels while, for a better fit, the back of the glove and the back of the fingers have cushioned Lycra inserts where the soft rubber PROGRIP logo is attached.

GLOVES

The great fit and protected feeling of this new glove are defined by the padded elastic panel in the upper side. The extra light thickness of the palm area, allows a great control of the handlebar.
