## ABOUT

Using the latest in grip technology and molding techniques, ProTaper's Clamp-On Grip System offers the comfort and control of traditional grips with the added advantage of quick, effortless installation. The design eliminates the need for glue and safety wire, yet ensures durable, slip-free performance.

Our super-slim clutch side *Windowed Core* not only minimizes the outer grip diameter, but also delivers critical relief areas for the palm and fingertips. The result is increased impact and vibration damping over competing solid-core designs, leading to significantly improved rider comfort and control.

The grip surface utilizes an extra-supple, tacky compound that is seamlessly molded to the inner core. This provides maximum comfort and traction and alleviates blistering. A firmer compound is used in the flange and endcap areas to resist crash damage and reduce wear.

## FEATURES

- *Easy on, easy off—no messy glue or safety wire needed*
- *Dual Compound Technology for comfort and durability*
- *Exclusive clutch-side Windowed Core eliminates harsh feel of competing solid core designs*
- *Includes 7 interchangeable throttle cams for most 2- and 4-stroke motocross models*
- *Slim outer grip diameter to alleviate arm pump*
- *Low-profile CNC machined aluminum clamp*
- *Three traction patterns to choose from: Half Waffle, Pillow Top, and Full Diamond*

THE **PERFECT BALANCE** OF  
WEIGHT, STRENGTH, AND DURABILITY.

## 40% MORE TOOTH SURFACE AREA

ProTaper Race Spec (RS) Rear Sprockets feature our revolutionary *Angled Mud Groove*. This exclusive design creates a self-cleaning effect during operation, shedding away mud that would otherwise lead to horsepower loss and sprocket wear. With their precise CNC machining and unique layout, these grooves also allow an increase in tooth surface area of up to 40% over competing sprockets. As a result, contact with the chain is significantly improved, leading to a marked increase in sprocket life over other brands. That's the ProTaper difference.

### OURS VS. THEIRS

*"ProTaper Race Spec Rear Sprockets are hands down the coolest looking, longest lasting all aluminum sprockets we've ever tested."*

# ZACH OSBORNE

## SWEEPS 2017

2017 was a breakout season for Zach Osborne. It began in Atlanta's Georgia Dome with his first career supercross win, and, two championships later, ended with a commanding 1-1 finish at the Ironman National in Crawfordsville, Indiana. Along the way, he mounted an unforgettable charge through the pack in Las Vegas, winning the title after making a legendary last-corner block pass. Zach's strong work ethic and never-say-die attitude embody the spirit of a true racer, and we're proud to have supported his efforts in 2017. Congratulations on an incredible year, Zach, and here's to many more!
